RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

WE ARE AT RISK TO CHANGES IN DOMESTIC AND INTERNATIONAL CARBON POLICY.

The supply and demand fundamentals of carbon credits are determined by governments and international consortiums and are beyond the Company's control. The ability of the company to continue operations will be dependent on the level of adoption and observance of the Kyoto Protocol, the post Kyoto Protocol environment and other initiatives aimed at reducing greenhouse gas emissions. Changes in government and corporate priorities as a result of government deficits, domestic industries or as a result of changes in the prevailing views concerning the impact of greenhouse gases on climate change could adversely affect the observance of the Kyoto Protocol, the adoption of successor protocols, and corporate initiatives.

IF PRICES OF FOREST-BASED CARBON CREDITS DROP SUBSTANTIALLY OUR BUSINESS COULD FAIL.

The principle factors affecting the Company's revenues are factors which affect the price of carbon credits and are beyond the Company's control. The actual market price of carbon credits fluctuates drastically and the price of Over-The-Counter "OTC" transactions fluctuate to an even greater degree. If prices were to fall substantially our business could fail.

WE ARE AT RISK TO CHANGES IN REGULATIONS AND VERIFICATIONS THAT COULD NEGATIVELY AFFECT THE COMPANY'S PROFITABILITY.

The processes by which carbon credits are created and verified are subject to change and beyond the Company's control. Governments, lobby groups, private firms, and Environmental Non-Government Organizations "ENGO's" all work to create a more efficient and accountable system to bring carbon credits available for market and to assure validity. As the industry matures the regulatory environment will as well. These changes could become more demanding in terms of time and costs and negatively affect the Company's profitability.

WE ARE SUBJECT TO CURRENCY FLUCTUATIONS THAT COULD NEGATIVELY AFFECT THE COMPANY'S PROFITABILITY.

The profitability of the Company may be adversely affected by fluctuations in the rate of exchange of the Canadian dollar and other currencies the Company may do business in. The company at this time does not expect to hedge against currency fluctuations and changes in exchange rates are beyond the Company's control.

WE OPERATE IN A COMPETITIVE INDUSTRY AND WILL COMPETE AGAINST OTHER COMPANY'S THAT COULD NEGATIVELY AFFECT THE COMPANY'S PROFITABILITY.

The carbon credit industry is a competitive industry. The Company will compete with numerous other participants in the search for, and the acquisition of, properties and in the marketing of the sale of carbon credits. The Company's competitors will include companies that have substantially greater financial resources, staff and facilities than those of the Company.

PROJECTS WILL BE AT RISK OF FIRE, PESTS AND DISEASES

Our assets will be made up of the environmental rights attached to carbon stocks in forests. Forests are at risk to damage from fire, pests and diseases. The company will implements strategies including fuels management, species composition management and pathogen assessments as part of routine monitoring procedures but often forces of nature are outside the control of the company and could require the company to incur losses in order to replace lost carbon stocks.

IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS WILL FAIL.

While at March 31, 2010, we had cash on hand of \$25,450, we have accumulated a deficit of \$6,211 in business development expenses. We anticipate that additional funding will be needed for general administrative expenses and marketing costs. We intend to raise the required funds through an equity placement. However, there is no guarantee that we will be able to raise the required cash and because of this our business may fail. We have not generated any revenue from operations to date. The specific cost requirements needed to maintain operations will depend upon the restoration projects we are able to procure. Specific costs include but are not limited to the following:

- Travel and project selection
- Feasibility studies
- Consultants
- Registration and Validation
- Project Implementation
- Measurement and Monitoring
- Marketing
- Sale Efforts

The amount of each of the specific costs described above will vary based on the project size, type and location. Reforestation projects have higher costs than do REDD projects due to the need to physically prepare and plant the site.

In order to expand our business operations, we anticipate that we will have to raise additional funding. If we are not able to raise the capital necessary to fund our business expansion objectives, we may have to delay the implementation of our business plan.

We do not currently have any arrangements for financing. Obtaining additional funding will be subject to a number of factors, including general market conditions, investor acceptance of our business plan and initial results from our business operations. These factors may impact the timing, amount, terms or conditions of additional financing available to us. The most likely source of future funds available to us is through the sale of additional shares of common stock or advances from our sole director.

BECAUSE OUR SOLE OFFICER AND DIRECTOR HAS OTHER BUSINESS INTERESTS, HE MAY NOT BE ABLE OR WILLING TO DEVOTE A SUFFICIENT AMOUNT OF TIME TO OUR BUSINESS OPERATIONS, CAUSING OUR BUSINESS TO FAIL.

Our sole officer and director, Jason Kropp, will only be devoting limited time to our operations. Mr. Kropp intends to devote 50% of his business time to our affairs. Because our sole officer and director will only be devoting limited time to our operations, our operations may be sporadic and occur at times which are convenient to him. As a result, operations may be periodically interrupted or suspended which could result in a lack of revenues and a possible cessation of operations. It is possible that the demands on Jason Kropp from his other obligations could increase with the result that he would no longer be able to devote sufficient time to the management of our business. In addition, Mr. Kropp may not possess sufficient time for our business if the demands of managing our business increase substantially beyond current levels.

BECAUSE WE HAVE ONLY ONE OFFICER AND DIRECTOR WHO HAS NO FORMAL TRAINING IN FINANCIAL ACCOUNTING AND MANAGEMENT, OUR BUSINESS HAS A HIGHER RISK OF FAILURE.

We have only one officer and director. He has no formal training in financial accounting and management; however, he is responsible for our managerial and organizational structure, which will include preparation of disclosure and accounting controls. When the disclosure and accounting controls referred to above are implemented, he will be responsible for the administration of them. Should he not have sufficient experience, he may be incapable of creating and implementing the controls which may cause us to be subject to sanctions and fines by the SEC which ultimately could cause an investor to lose their investment. However, because of the small size of our expected operations, we believe that he will be able to monitor the controls he will have created and will be accurate in assembling and providing information to investors. Mr. Kropp's lack of training in financial accounting and management may result in a material misstatement of the Company's financial statements. In addition due to the Company's lack of accounting personnel we may be unsuccessful in maintaining effective internal controls over financial reporting and disclosure controls and procedures, which may result in material misstatements of our financial statements.

BECAUSE OUR CONTINUATION AS A GOING CONCERN IS IN DOUBT, WE WILL BE FORCED TO CEASE BUSINESS OPERATIONS UNLESS WE CAN GENERATE PROFITABLE OPERATIONS IN THE FUTURE.

We will be incurring losses until we build a break-even level of revenue. Further losses are anticipated in the development of our business. As a result, there is substantial doubt about our ability to continue as a going concern. Our ability to continue as a going concern is dependent upon our ability to generate profitable operations in the future and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business operations when they come due. We will require additional funds in order to provide proper service to our potential clients. At this time, we cannot assure investors that we will be able to obtain financing. If we are unable to raise needed financing, we will have to delay or abandon further consulting efforts. If we cannot raise financing to meet our obligations, we will be insolvent and will be forced to cease our business operations.

IF JASON KROPP, OUR SOLE OFFICER AND DIRECTOR, SHOULD RESIGN OR DIE, WE WILL NOT HAVE A CHIEF EXECUTIVE OFFICER. THIS COULD RESULT IN OUR OPERATIONS SUSPENDING, AND INVESTORS COULD LOSE THEIR INVESTMENT.

We depend on the services of our sole officer and director, Jason Kropp for the future success of our business. The loss of the services of Mr. Kropp could have an adverse effect on our business, financial condition and results of operations. If he should resign or die we will not have a chief executive officer. If that should occur, until we find another person to act as our chief executive officer, our operations could be suspended. In that event it is possible an investor could lose their entire investment. We do not carry any key personnel life insurance policies on Mr. Kropp and we do not have a contract for his services.

BECAUSE OUR DIRECTOR OWNS 31.25% OF OUR ISSUED AND OUTSTANDING COMMON STOCK, THEY CAN MAKE AND CONTROL CORPORATE DECISIONS THAT MAY BE DISADVANTAGEOUS TO MINORITY SHAREHOLDERS.

Our director, Jason Kropp, owns approximately 31.25% of the outstanding shares of our common stock. Accordingly, he will have a significant influence in determining the outcome of all corporate transactions or other matters, including mergers, consolidations, and the sale of all or substantially all of our assets. He will also have the power to prevent or cause a change in control. The interests of our directors may differ from the interests of the other stockholders and thus result in corporate decisions that are disadvantageous to other shareholders.

THE AMOUNT OF SHARES TO BE SOLD THROUGH THIS OFFERING MAY MAKE IT UNLIKELY THAT WE WILL BE ABLE TO MAKE A SUCCESSFUL OFFERING OF OUR SECURITIES IN THE NEAR FUTURE.

Our selling shareholders are offering a significant percentage (40.9%) of our outstanding shares through this registration statement. As such, it is unlikely that we will be able to make a successful offering of our securities to raise capital in the near future.

U.S. INVESTORS MAY EXPERIENCE DIFFICULTIES IN ATTEMPTING TO EFFECT SERVICE OF PROCESS AND TO ENFORCE JUDGMENTS BASED UPON U.S. FEDERAL SECURITIES LAWS AGAINST THE COMPANY AND ITS SOLE NON-U.S. RESIDENT OFFICER AND DIRECTOR.

While we are organized under the laws of State of Nevada, our sole officer and director is non-U.S. resident. Consequently, it may be difficult for investors to affect service of process on Mr. Kropp in the United States and to enforce in the United States judgments obtained in United States courts against Mr. Kropp based on the civil liability provisions of the United States securities laws. Since our assets will be located in Canada and other non-US countries it may be difficult or impossible for U.S. investors to collect a judgment against us. As well, any judgment obtained in the United States against us may not be enforceable in the United States.

IF A MARKET FOR OUR COMMON STOCK DOES NOT DEVELOP, SHAREHOLDERS MAY BE UNABLE TO SELL THEIR SHARES.

There is currently no market for our common stock and we can provide no assurance that a market will develop. We plan to apply for listing of our common stock on the over the counter bulletin board upon the effectiveness of the registration statement, of which this prospectus forms a part. However, we can provide investors with no assurance that our shares will be traded on the bulletin board or, if traded, that a public market will materialize. If no market is ever developed for our shares, it will be difficult for shareholders to sell their stock. In such a case, shareholders may find that they are unable to achieve benefits from their investment.

OUR SHARES OF COMMON STOCK ARE SUBJECT TO THE "PENNY STOCK" RULES OF THE SECURITIES AND EXCHANGE COMMISSION AND THE TRADING MARKET IN OUR SECURITIES WILL BE LIMITED, WHICH WILL MAKE TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in "penny stocks." Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document prepared by the SEC, which specifies information about penny stocks and the nature and significance of risks of the penny stock market. A broker-dealer must also provide the customer with bid and offer quotations for the penny stock, the compensation of the broker-dealer, and sales person in the transaction, and monthly account statements indicating the market value of each penny stock held in the customer's account. In addition, the penny stock rules require that, prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for stock that becomes subject to those penny stock rules. If a trading market for our common stock develops, our common stock will probably become subject to the penny stock rules, and shareholders may have difficulty in selling their shares.

ANY ADDITIONAL FUNDING WE ARRANGE THROUGH THE SALE OF OUR COMMON STOCK WILL RESULT IN DILUTION TO EXISTING SHAREHOLDERS.

We must raise additional capital in order for our business plan to succeed. Our most likely source of additional capital will be through the sale of additional shares of common stock. Such stock issuances will cause stockholders' interests in our company to be diluted. Such dilution will negatively affect the value of investors' shares.

WE DO NOT EXPECT TO PAY DIVIDENDS IN THE FORESEEABLE FUTURE.

We have never paid any dividends on our common stock. We do not expect to pay cash dividends on our common stock at any time in the foreseeable future. The future payment of dividends directly depends upon our future earnings, capital requirements, financial requirements and other factors that our board of directors will consider. Since we do not anticipate paying cash dividends on our common stock, a return on your investment, if any, will depend solely on an increase, if any, in the market value of our common stock

WE HAVE NO EXPERIENCE AS A PUBLIC COMPANY.

We have never operated as a public company. We have no experience in complying with the various rules and regulations, which are required of a public company. As a result, we may not be able to operate successfully as a public company, even if our operations are successful. We plan to comply with all of the various rules and regulations, which are required of a public company. However, if we cannot operate successfully as a public company, your investment may be adversely affected. Our inability to operate as a public company could be the basis of your losing your entire investment in us.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are most likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in the "Risk Factors" section and elsewhere in this prospectus.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the common stock offered through this prospectus by the selling shareholders.

DETERMINATION OF OFFERING PRICE

The selling shareholders will sell our shares at a fixed price of \$0.04 per share unless and until our shares are quoted on the OTC Bulletin Board. We determined this offering price arbitrarily by adding a \$0.03 premium to the last sale price of our common stock to investors. There is no relationship between this price and our assets, earnings, book value or any other objective criteria of value.

We intend to apply to the OTC Bulletin Board through a market maker for the quotation of our common stock upon our becoming a reporting entity under the Securities Exchange Act of 1934. If our common stock becomes so traded and a market for the stock develops, the actual price of stock will be determined by prevailing market prices at the time of sale or by private transactions negotiated by the selling shareholders. The offering price would thus be determined by market factors and the independent decisions of the selling shareholders.

DILUTION

The common stock to be sold by the selling shareholders is common stock that is currently issued and outstanding. Accordingly, there will be no dilution to our existing shareholders.

SELLING SHAREHOLDERS

The selling shareholders named in this prospectus are offering all of the 2,200,000 shares of common stock offered through this prospectus. These shares were acquired from us in private placements that were exempt from registration provided under Regulation S of the Securities Act of 1933. All shares were acquired outside of the United States by non-U.S. persons. The shares include the following:

1. 1,00,000 shares of our common stock that the selling shareholders acquired from us in an offering that was exempt from registration under Regulation S of the Securities Act of 1933 that was completed on December 30, 2009;
2. 2,200,000 shares of our common stock that the selling shareholders acquired from us in an offering that was exempt from registration under Regulation S of the Securities Act of 1933 that was completed on March 10, 2010;

The following table provides as of the date of this prospectus, information regarding the beneficial ownership of our common stock held by each of the selling shareholders, including:

1. the number of shares owned by each prior to this offering;
2. the total number of shares that are to be offered for each;
3. the total number of shares that will be owned by each upon completion of the offering; and
4. the percentage owned by each upon completion of the offering.

The named party beneficially owns and has sole voting and investment power over all shares or rights to these shares. The numbers in this table assume that none of the selling shareholders sells shares of common stock not being offered in this prospectus or purchases additional shares of common stock, and assumes that all shares offered are sold. The percentages are based on 3,200,000 shares of common stock issued and outstanding on the date of this prospectus.

None of the selling shareholders:

1. has had a material relationship with us other than as a shareholder at any time within the past three years;
2. has ever been one of our officers or directors;
3. is a broker-dealer; or a broker-dealer's affiliate.

PLAN OF DISTRIBUTION

The selling shareholders may sell some or all of their common stock in one or more transactions, including block transactions. There are no arrangements, agreements or understandings with respect to the sale of these securities.

The selling shareholders will sell our shares at a fixed price of \$0.04 unless and until our shares are quoted on the OTC Bulletin Board. We determined this offering price arbitrarily by adding a \$0.03 premium to the last sale price of our common stock to investors. We intend to contact an authorized OTC Bulletin Board market-maker for sponsorship of our securities on the OTC Bulletin Board. Although we intend to apply for quotation of our common stock on the OTC Bulletin Board, public trading of our common stock may never materialize. If our common stock becomes traded on the OTC Bulletin Board, then the sales price to the public will vary according to the selling decisions of each selling shareholder and the market for our stock at the time of resale.

The shares may also be sold in compliance with the Securities and Exchange Commission's Rule 144, when eligible.

If applicable, the selling shareholders may distribute shares to one or more of their nominees who are unaffiliated with us. Such nominees may, in turn, distribute such shares as described above. If these shares being registered for resale are transferred from the named selling shareholders and the new shareholders wish to rely on the prospectus to resell these shares, then we must first file a prospectus supplement naming these individuals as selling shareholders and providing the information required concerning the identity of each selling shareholder and he or her relationship to us. There is no agreement or understanding between the selling shareholders and any nominees with respect to the distribution of the shares being registered for resale pursuant to this registration statement.

For the purpose of this registration statement nominee will be defined as: (a) a person or entity who is requested or named to act for another, such as an agent or trustee, or (b) a potential successor to another's rights under a contract.

We can provide no assurance that all or any of the common stock offered will be sold by the selling shareholders.

We are bearing all costs relating to the registration of the common stock. The selling shareholders, however, will pay any commissions or other fees payable to brokers or dealers in connection with any sale of the common stock.

The persons listed in the following table plan to offer the shares shown opposite their respective names by means of this prospectus. The owners of the shares to be sold by means of this prospectus are referred to as the "selling" shareholders". The selling shareholders acquired their shares from us in private negotiated transactions. These shares may be sold by one or more of the following methods, without limitations.

- * A block trade in which a broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- * Purchase by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;
- * Ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- * Face to face transactions between sellers and purchasers without a broker/dealer.

Presently, the selling shareholders cannot sell their common stock of our company in accordance with new Rule 144 under the Securities Act because we are defined as a "shell company."

In competing sales, brokers or dealers engaged by the selling shareholders may arrange for other brokers or dealers to participate. Brokers or dealers may receive commissions or discounts from selling shareholders in amounts to be negotiated. As to any particular broker-dealer, this compensation might be in excess of customary commissions. Neither, we nor the selling stockholders can presently estimate the amount of such compensation.

The selling shareholders and any broker/dealers who act in connection with the sale of the shares will be deemed to be "underwriters" within the meaning of the Securities Acts of 1933, and any commissions received by them and any profit on any resale of the shares as a principal might be deemed to be underwriting discounts and commissions under the Securities Act.

If any selling shareholder enters into an agreement to sell his or her shares to a broker/dealer as principal and the broker/dealer is acting as an underwriter, we will file a post-effective amendment to the registration statement, of which this prospectus is a part, identifying the broker/dealer, providing required information concerning the plan of distribution, and otherwise revising the disclosures in this prospectus as needed. We will also file the agreement between the selling shareholder and the broker/dealer as an exhibit to the post-effective amendment to the registration statement.

We have advised the selling shareholders that they and any securities broker/dealers or others who will be deemed to be statutory underwriters will be subject to the prospectus delivery requirements under the Securities Act of 1933. We have advised each selling shareholder that in the event of a "distribution" of the shares owned by the selling shareholder, such selling shareholder, any "affiliated purchasers", and any broker/dealer or other person who participates in the distribution may be subject to Rule 102 of Regulation M under the Securities Exchange Act of 1934 ("1934 Act") until their participation in that distribution is complete. Rule 102 makes it unlawful for any person who is participating in a distribution to bid for or purchase stock of the same class, as is the subject of the distribution. A "distribution" is defined in Rule 102 as an offering of securities "that is distinguished from ordinary trading transaction by the magnitude of the offering and the presence of special selling efforts and selling methods". We have advised the selling shareholders that Rule 101 of Regulation M under the 1934 Act prohibits any "stabilizing bid" or "stabilizing purchase" for purpose of pegging, fixing or stabilizing the price of the common stock in connection with this offering.

No selling shareholder (other than the current officer/director) has, or had, any material relationship with our officers or directors. No selling shareholder is affiliated with a broker/dealer.

The selling shareholders must comply with the requirements of the Securities Act and the Securities Exchange Act in the offer and sale of the common stock. In particular, during such times as the selling shareholders may be deemed to be engaged in a distribution of the common stock, and therefore be considered to be an underwriter, they must comply with applicable law and may, among other things:

1. Not engage in any stabilization activities in connection with our common stock;
2. Furnish each broker or dealer through which common stock may be offered, such copies of this prospectus, as amended from time to time, as may be required by such broker or dealer; and
3. Not bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities other than as permitted under the Securities Exchange Act.

The Securities and Exchange Commission has also adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00 (other

than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system).

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, deliver a standardized risk disclosure document prepared by the Commission, which contains:

- a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation of such duties or other requirements;
- a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the bid and ask price;
- a toll-free telephone number for inquiries on disciplinary actions;
- a definition of significant terms in the disclosure document or in the conduct of trading penny stocks; and
- such other information and is in such form (including language, type, size, and format) as the Commission shall require by rule or regulation.

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, the customer with:

- bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements will have the effect of reducing the trading activity in the secondary market for our stock because it will be subject to these penny stock rules. Therefore, stockholders may have difficulty selling those securities.

DESCRIPTION OF BUSINESS

We were incorporated in the State of Nevada on September 17, 2010 and have not begun operations. We intend to produce Verified Emission Reduction (VER) and Reduced Emissions from Deforestation and Degradation (REDD) carbon offsets through global restoration projects. The offsets will be validated and verified to ISO 14064-2 standard for sale to companies, foundations, and other entities that, for branding, policy and corporate social responsibility reasons, wish to offset their carbon footprints to support climate change mitigation efforts.

Krossbow Holdings has the capacity to assess carbon resource potentials, prescribe and implement ecosystem restorations to develop those resources, and thereby generate carbon offset products for sales directly with subscribers, or through brokers and re-sellers. Krossbow's business model may be likened to an integrated resource company that "stakes" its claims to carbon resources, develops those resources into carbon offsets that it owns, and then markets those offsets to the voluntary carbon markets.

The Company's revenue will be generated by the sale of carbon offsets. Carbon offsets will be generated through three separate methods:

Afforestation: Establishing forests on bare or cultivated land that has not been forested in recent history.

Reforestation: Re-growing forests in areas where forested have previously been harvested.

Reducing emissions from Deforestation and Degradation "REDD": Deforestation refers to direct human-induced, long-term conversion of forests to non-forest land. Degradation refers to gradual, direct human-induced loss of forest carbon stocks.

Through these three methods we intend to generate carbon offsets which represent the carbon consumption capability of the planted and/or protected trees. The carbon offsets will be validated and verified to international standards for sale to various entities.

BUSINESS MODEL (VER CREDITS)

Step 1 - Identify degraded ecosystem Step 2 - Approach, and consult land owner Step 3 - Conduct biometric research and site prescription Step 4 - Secure seed stock
Step 5 - Prepare site and plant
Step 6 - Verify Emissions
Step 7 - Transaction Step 8- Monitor

BUSINESS MODEL (REDD CREDITS)

Step 1 - Identify forested ecosystem slated/available for harvest Step 2 - Approach, and consult land owner Step 3 - Conduct biometric research and site prescription Step 4 - Verify Emissions
Step 5 - Transaction Step 6- Monitor

MARKETS

Voluntary carbon markets nearly doubled in 2008 and are up over 700 percent from 2006. For the international carbon offsets market, comprised of both regulated and voluntary carbon offset and credit trading, the current and anticipated trend is of sustained growth, modulated by corporate and government policy

developments. The forest-based carbon offsetting industry is heavily affected by international policy and decisions made over the upcoming years will have substantial impacts on the company's success.

This growth is supported by the findings of McKinsey & Company, a global management consulting firm that has reported that 35% of greenhouse gas abatement potential internationally arises from forest-based projects, which represent Krossbows primary focus. This finding also reflects on market potential for the Company. In terms of the company's operational performance, a number of economic and policy factors continue to affect the Company. For example, on March 31, 2009 the U.S. House subcommittee released a discussion draft of The American Clean Energy and Security Act of 2009, which strongly supports market-based programming and the inclusion of carbon offsets for US climate policy implementation, and forest-based offsets explicitly, both domestic and international. Currently, the Boxer Kerry Climate Bill is the focus of U.S. climate policy development. As The Company is investigating and developing a number of international opportunities in equatorial Africa and South America, the advancement of this Bill should positively impact the Company's performance in 2010 and beyond.

Based on the current status of policy and regulatory developments, the Company may also have access to U.S. markets from its domestic operations as well, particularly with respect to potential avoided deforestation projects.

International and domestic policy uncertainties continue, and though the Company will remain committed to establishing relationships with large and credible ethical organizations and corporations that are committed to climate mitigation, along with marketing, sales, there is no guarantee that markets will continue to be supported by the world's policy makers.

6.2 MARKETS TYPES:

Voluntary Market: The Voluntary Market involves individuals, companies, and organizations who purchase carbon offsets voluntarily to mitigate or neutralize their own greenhouse gas emissions from transportation, electricity use, and other sources. These groups are not obligated to purchase carbon offsets, but choose to for various reasons such as green branding, social corporate responsibility, or choosing to do the "right" thing.

Carbon offset products used in voluntary markets are generally referred to as Verified Emissions Reductions or (VERs)

Krossbow intends to provide the voluntary market with a carbon offset source that is third party validated and verified to the international greenhouse gas project standard "ISO 14064-2" to assure scientific rigor.

Compliant Market: The Compliant Market (or regulated market) involves companies, governments or other entities that buy carbon offsets in order to comply with regulations on the total amount of carbon dioxide they are allowed to emit. Examples of the regulated market are the European Union Emissions Trading System or EU ETS. All companies which abide by these systems are obligated to meet specific carbon emission reduction targets.

These carbon credits are generally referred to as Certified Emissions Reductions or (CERs).

The vast majority of CERs are created through technology transfers and by fuel-switching from carbonaceous fossil fuels to cleaner renewable energy sources. Over time, however, the role of forests in mitigating climate change has increasingly gained credence and there is a growing political consensus on the need to incorporate forest based emissions in a greater capacity.

COMPETITION

The carbon credit industry is a competitive industry. The Company will compete with numerous other participants in the search for, and the acquisition of, properties and in the marketing of the sale of carbon credits. The Company's competitors will include companies that have substantially greater financial resources, staff and facilities than those of the Company. Our failure to maintain a competitive position within the market could have a materially adverse effect on our business, financial condition and results of operations.

INSURANCE

We do not maintain any insurance at present but intend to insure all timber assets once credits have been verified. Insurance will be needed for the life of the project and will vary based on species and terms outlined in the verification documents. Insurance will be required in the case of fire, pests, disease or other potential hazards to the trees which are the source of the carbon credits the Company intends to sell. Because we do not have any insurance at present, if we are made a party of a liability action, we may not have sufficient funds to defend the litigation. If that occurs a judgment could be rendered against us that could cause us to cease operations.

EMPLOYEES

We are a development stage company and currently have no employees, other than our sole officer and director. We intend to hire additional employees on an as needed basis.

GOVERNMENT REGULATIONS

The regulatory environment of carbon credits is presently handled by third party organizations that verify the validity and quality of carbon offsetting projects. In order to sell Verified Emission Reduction credits (VER's) and Reduced Emissions from Deforestation and Degradation credits (REDD's) we will be required to have a third party verify the project with an onsite visit. We intend to verify any carbon offsets through ISO 14064 project accounting standard. ISO 14064 is a greenhouse gas project accounting standard developed by the International Organization and Standardization beginning in 2002 and launched in spring of 2006. The standard is meant to be applicable regardless of a country's current climate policy, and does not apply restrictions of project types, size, location and crediting period. Requirements for certification include:

1. The first part (14064-1) specifies requirements for designing and developing organization or entity-level GHG inventories.
2. The second part (14064-2) details requirements for quantifying, monitoring and reporting emission reductions and removal enhancements from GHG projects.
3. The third part (14064-3) provides requirements and guidance for the conducting of GHG information validation and verification.

The verification process is still in its infancy stages and it is possible this process will become more regulated in the future causing increases in time delays and costs for the Company.

We intend to register our projects to ensure credibility and transparency of all aspects from consultation to monitoring.

RESEARCH AND DEVELOPMENT

We have not incurred any other research or development expenditures since our incorporation.

SUBSIDIARIES

We do not have any subsidiaries.

PATENTS AND TRADEMARKS

We do not own, either legally or beneficially, any patents or trademarks.

OFFICES

Our principal offices are located at 831-77th Avenue, Edmonton, Alberta Canada, T6P 1S9.. Our telephone number is 780-860-9261. We intend to move to a more suitable location if we are able to raise additional capital through an equity placement. We do not pay any rent and there is no agreement to pay any rent in the future. Such costs are immaterial to the financial statements and, accordingly have not been reflected therein.

LEGAL PROCEEDINGS

We are not currently a party to any legal proceedings. Our address for service of process in Nevada is 2620 Regatta Dr. Suite 102, 89128.

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

NO PUBLIC MARKET FOR COMMON STOCK

There is presently no public market for our common stock. We anticipate applying for trading of our common stock on the over the counter bulletin board upon the effectiveness of the registration statement of which this prospectus forms a part. However, we can provide no assurance that our shares will be traded on the bulletin board or, if traded, that a public market will materialize.

STOCKHOLDERS OF OUR COMMON SHARES

As of the date of this registration statement, we have 30 registered shareholders.

RULE 144 SHARES

A total of 1,000,000 shares of our common stock are available for resale to the public in accordance with the volume and trading limitations of Rule 144 of the Act. The SEC has recently adopted amendments to Rule 144 which became effective on February 15, 2008 and applies to securities acquired both before and after that date. Under these amendments, a person who has beneficially owned restricted shares of our common stock for at least six months is entitled to sell their securities PROVIDED that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding the sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale.

Persons who have beneficially owned restricted shares of our common stock for at least six months but who are our affiliates at the time of, or at any time during the three months preceding the sale, are subject to additional restrictions. Such person is entitled to sell within any three-month period only a number of securities that does not exceed the greater of either of the following:

* 1% of the total number of securities of the same class then outstanding, which will equal 32,000 shares as of the date of this prospectus; or

* the average weekly trading volume of such securities during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale;

PROVIDED, in each case, that we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale.

Such sales must also comply with the manner of sale and notice provisions of Rule 144.

As of the date of this prospectus, persons who are our affiliates hold all of the 1,000,000 shares that may be sold pursuant to Rule 144.

STOCK OPTION GRANTS

To date, we have not granted any stock options.

REGISTRATION RIGHTS

We have not granted registration rights to the selling shareholders or to any other persons.

DIVIDENDS

There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1. we would not be able to pay our debts as they become due in the usual course of business; or
2. our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

We have not declared any dividends, and we do not plan to declare any dividends in the foreseeable future.

PLAN OF OPERATION

Upon completion of our public offering, our specific goal is to procure suitable forest-based carbon offsetting projects where we can establish new forests, or protect forested landscapes in danger of deforestation and degradation. We intend to use these projects to create verified carbon credits for sale to market. Our plan of operations is as follows:

DEVELOP WEBSITE

We have begun work on a corporate website and have begun initial marketing and networking efforts. Our website will be used to raise awareness for our business and the business model we intend to implement. At the time of this prospectus we have paid CarbonBull Inc. US \$500.00 for a six month corporate banner. CarbonBull is an Australian based Carbon news and marketing website that we hope to use to gain interest and access to international markets for both sales and possible future forestry projects.

COMPLETION OF FINANCING (6 MONTHS)

We expect to complete our public offering within 180 days after the effectiveness of our registration statement by the Securities and Exchange Commissions. We intend to concentrate all our efforts on raising capital during this period. We do not plan to begin business operations until we complete our public offering. We will require additional financing of \$300,000 in order to

proceed with our full business plan for a full year. We plan to sell additional common shares in order to raise the funds necessary to pursue our plan of operations. Issuances of additional shares will result in dilution to our existing shareholders. We also may receive loans from our directors and officers. We currently do not have any arrangements in place for obtaining director loans and there is no assurance that we will be successful in completing any equity financing.

PROCURE INITIAL PROJECT IN CANADA (1 MONTH)

We intend to use a forest/pastureland interface in the province of Alberta for an initial project. Several suitable projects have been identified but no advanced steps have been taken to draft contracts or begin initial feasibility studies. We require additional capital to initiate a feasibility study and have legal contracts drafted.

INITIATE FEASIBILITY STUDY (2 WEEKS)

In order to assess the economic viability of our initial project we intend to conduct a feasibility study where by growth and yield data will be used to calculate carbon potential of the chosen project. The carbon potential will be used to calculate revenues while costs will be determined by price of seed stock, labor, verification, overhead and monitoring costs.

IMPLEMENT WORK PROGRAM (1-2 MONTH(S))

If the results of the feasibility study show positive economics we will implement the site specific work program. The specific characteristics of the chosen site will determine how much planting and site preparation is required and how much preservation of existing vegetation is required. In order to complete our work program the following costs will likely be incurred:

Legal - documents drafted to define terms of environmental rights, property rights and responsibilities.

Seed Stock - seedlings will need to be purchased from local stock providers.

Labor - planting sites will need to be cleared and prepared and a planting crew will need to be hired in order to complete the afforestation/reforestation.

Monitoring- costs associated with assuring the planted and protected trees are growing to their potential and that adverse growing conditions, pests, fire and disease have not negatively affected growth. This cost will not be incurred at the time of the work program but a liability will be added to the balance sheet.

VERIFY CARBON CREDITS (1 MONTH)

Once the work program has been completed the project will undergo a review by a third party. We intend to verify any carbon offsets through ISO 14064 project accounting standard. ISO 14064 is a greenhouse gas project accounting standard developed by the International Organization and Standardization beginning in 2002 and launched in spring of 2006. The standard is meant to be applicable regardless of a country's current climate policy, and does not apply restrictions of project types, size, location and crediting period. Requirements for certification include:

1. The first part (14064-1) specifies requirements for designing and developing organization or entity-level GHG inventories.

2. The second part (14064-2) details requirements for quantifying, monitoring and reporting emission reductions and removal enhancements from GHG projects.
3. The third part (14064-3) provides requirements and guidance for the conducting of GHG information validation and verification.

LOCATE BUYER FOR VERIFIED EMISSIONS (1-3 MONTH(S))

Once the carbon credits have been verified we will have the ability to sell the carbon credits associated with the project. There are two primary buyers of carbon credits we intend to market our product too:

Voluntary Market: The Voluntary Market involves individuals, companies, and organizations who purchase carbon offsets voluntarily to mitigate or neutralize their own greenhouse gas emissions from transportation, electricity use, and other sources. These groups are not obligated to purchase carbon offsets, but choose to for various reasons such as green branding, social corporate responsibility, or choosing to do the "right" thing.

Carbon offset products used in voluntary markets are generally referred to as Verified Emissions Reductions or (VERs)

Compliant Market: The Compliant Market (or regulated market) involves companies, governments or other entities that buy carbon offsets in order to comply with regulations on the total amount of carbon dioxide they are allowed to emit. Examples of the regulated market are the European Union Emissions Trading System or EU ETS. All companies which abide by these systems are obligated to meet specific carbon emission reduction targets.

These carbon credits are generally referred to as Certified Emissions Reductions or (CERs).

The vast majority of CERs are created through technology transfers and by fuel-switching from carbonaceous fossil fuels to cleaner renewable energy sources. Over time, however, the role of forests in mitigating climate change has increasingly gained credence and there is a growing political consensus on the need to incorporate forest based emissions in a greater capacity.

At present the company has no buyers for potential carbon credits. There is no guarantee we will be able to source a buyer at a secured price to achieve profitable operations. If we are unable to find a suitable buyer for our potential carbon credits our business may fail.

SUMMARY

In summary, we should be in full operation and taking on contracts within 180 days (6 months) of the effectiveness of our registration statement. The completion of our first operational project should take 5-7 months from identification to final sale of verified carbon credits.

LIMITED OPERATING HISTORY; NEED FOR ADDITIONAL CAPITAL

There is no historical financial information about us upon which to base an evaluation of our performance. We are a start-up company and have not generated any revenues. We cannot guarantee success of our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns due to price and cost increases in services and products.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to existing shareholders.

RESULTS OF OPERATIONS FOR PERIOD ENDING MARCH 31, 2010

We did not earn any revenues from our incorporation on September 17, 2009 to March 31, 2010. We incurred operating expenses in the amount of \$6,211 for the period from our inception on September 17, 2009 through March 31, 2010. These operating expenses were comprised incorporation costs, web-marketing and other development costs.

We have not attained profitable operations and are dependent upon obtaining financing to continue with our business plan. For these reasons, there is substantial doubt that we will be able to continue as a going concern.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS

We have had no changes in or disagreements with our accountants.

DISCLOSURE OF COMMISSION POSITION OF INDEMNIFICATION FOR SECURITIES ACT LIABILITIES

Our sole officer and director is indemnified as provided by the Nevada Revised Statutes and our Bylaws. We have been advised that in the opinion of the Securities and Exchange Commission indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to court of appropriate jurisdiction. We will then be governed by the court's decision.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Boards of Directors
Krossbow Holding Corp.
Edmonton, Alberta, Canada

We have audited the accompanying balance sheet of Krossbow Holding Corp., as of March 31, 2010, and the related statements of operations, stockholders' equity, and cash flows for the period from September 17, 2009 (date of inception) to March 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Krossbow Holding Corp., as of March 31, 2010 and the results of their operations and cash flows for the period from September 17, 2009 (date of inception) to March 31, 2010, in conformity with accounting principles generally accepted in the United States.

The accompanying financial statements have been prepared assuming that Krossbow Holding Corp. will continue as a going concern. As discussed in Note 6 to the financial statements, the Company has incurred losses from operations and is in need of additional capital to grow its operations so that it can become profitable. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with regard to these matters are described in Note 6. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2010

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION AND BUSINESS

Krossbow Holding Corp. ("the Company") was incorporated under the laws of the State of Nevada, U.S. on September 17, 2009. The Company is in the development stage and it intends to design and construct eco-friendly self assembly housing and storage structures. The Company intends to build a product that will be well suited to a more environmentally conscious market looking for affordable quality housing and storage that can be put together easily and quickly. Initially the target market will be the resort and cabin markets of Europe, Asia and North America.

The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception, September 17, 2009 through March 31, 2010 the Company has accumulated losses of \$6,211.

BASIS OF PRESENTATION

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars.

ACCOUNTING BASIS

The Company uses the accrual basis of accounting and accounting principles generally accepted in the United States of America ("GAAP" accounting). The Company has adopted an August 31 fiscal year end.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying value of cash, accounts payable and notes payable approximate their fair value due to the short period of these instruments.

DEVELOPMENT STAGE COMPANY

The accompanying financial statements have been prepared in accordance with generally accepted accounting principles related to development-stage companies. A development-stage company is one in which planned principal operations have not commenced or if its operations have commenced, there has been no significant revenues there from.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

For purposes of the statement of cash flows, the Company considers highly liquid financial instruments purchased with a maturity of three months or less to be cash equivalents.

REVENUE RECOGNITION

The Company will recognize revenue when products are fully delivered or services have been provided and collection is reasonably assured.

KROSSBOW HOLDING CORP.
(A DEVELOPMENT STAGE COMPANY)

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2010

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

INCOME TAXES

The Company utilizes the liability method of accounting for income taxes. Under the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting basis and the tax basis of the assets and liabilities and are measured using enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recognized, when it is more likely than not, that such tax benefits will not be realized.

Any deferred tax asset is considered immaterial and has been fully offset by a valuation allowance because at this time the Company believes that it is more likely than not that the future tax benefit will not be realized as the Company has no current operations.

LOSS PER COMMON SHARE

Basic loss per share is calculated using the weighted-average number of common shares outstanding during each reporting period. Diluted loss per share includes potentially dilutive securities such as outstanding options and warrants, using various methods such as the treasury stock or modified treasury stock method in the determination of dilutive shares outstanding during each reporting period. The Company does not have any potentially dilutive instruments.

STOCK-BASED COMPENSATION

Stock-based compensation is accounted for at fair value in accordance with SFAS No. 123 and 123 (R) (ASC 718). To date, the Company has not adopted a stock option plan and has not granted any stock options.

As of March 31, 2010, the Company has not issued any stock-based payments to its employees.

FOREIGN CURRENCY TRANSLATION

The Company's functional currency is the Canadian dollar and its reporting currency is the United States dollar.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2009, the FASB issued SFAS 165 (ASC 855-10) entitled "Subsequent Events". Companies are now required to disclose the date through which subsequent events have been evaluated by management. Public entities (as defined) must conduct the evaluation as of the date the financial statements are issued, and provide disclosure that such date was used for this evaluation. SFAS 165 (ASC 855-10) provides that financial statements are considered "issued" when they are widely distributed for general use and reliance in a form and format that complies with GAAP. SFAS 165 (ASC 855-10) is effective for interim and annual periods ending after June 15, 2009 and must be applied prospectively. The adoption of SFAS 165 (ASC 855-10) during the quarter ended September 30, 2009 did not have a significant effect on the Company's financial statements as of that date or for the quarter or year-to-date period then ended. In connection with preparing the accompanying unaudited financial statements as of September 30, 2009 and for the quarter and nine month period ended September 30, 2009, management evaluated subsequent events through the date that such financial statements were issued (filed with the SEC).

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2010

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

RECENT ACCOUNTING PRONOUNCEMENTS (CONTINUED)

In June 2009, the FASB issued SFAS 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles. ("SFAS 168" or ASC 105-10) SFAS 168 (ASC 105-10) establishes the Codification as the sole source of authoritative accounting principles recognized by the FASB to be applied by all nongovernmental entities in the preparation of financial statements in conformity with GAAP. SFAS 168 (ASC 105-10) was prospectively effective for financial statements issued for fiscal years ending on or after September 15, 2009 and interim periods within those fiscal years. The adoption of SFAS 168 (ASC 105-10) on July 1, 2009 did not impact the Company's results of operations or financial condition. The Codification did not change GAAP, however, it did change the way GAAP is organized and presented.

As a result, these changes impact how companies reference GAAP in their financial statements and in their significant accounting policies. The Company implemented the Codification in this Report by providing references to the Codification topics alongside references to the corresponding standards.

With the exception of the pronouncements noted above, no other accounting standards or interpretations issued or recently adopted are expected to have a material impact on the Company's financial position, operations or cash flows.

NOTE 2 - CAPITAL STOCK

The authorized capital of the Company is 75,000,000 common shares with a par value of \$ 0.001 per share.

In December 2009, the Company issued 1,000,000 shares of common stock at a price of \$0.004 per share for total cash proceeds of \$4,000.

In January through March 2010, the Company issued 2,200,000 shares of common stock at a price of \$0.01 per share for total cash proceeds of \$22,000.

The Company has 3,200,000 shares of common stock issued and outstanding as of March 31, 2010.

NOTE 3 - ACCRUED EXPENSES

Accrued expenses at March 31, 2010 consisted of amounts owed to the Company's outside independent auditors and a company assisting in building the Company's logo and website.

NOTE 4 - NOTE PAYABLE - RELATED PARTY

On September 17, 2009, the sole Director and President, Jason Kropp loaned the Company \$1,079. The loan is non-interest bearing, unsecured and due upon demand.

(A DEVELOPMENT STAGE COMPANY)

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 2010

NOTE 5 - INCOME TAXES

For the period ended March 31, 2010, the Company has incurred net losses and, therefore, has no tax liability. The net deferred tax asset generated by the loss carry-forward has been fully reserved. The cumulative net operating loss carry-forward is approximately \$6,000 at March 31, 2010, and will expire beginning in the year 2030.

The cumulative tax effect at the expected rate of 34% of significant items comprising our net deferred tax amount is as follows:

	2009

Income tax expense at statutory rate	\$ 2,111
Valuation allowance	(2,111)

Income tax expense per books	\$ --
	=====

Net deferred tax assets consist of the following components as of:

	2009

NOL Carryover	\$ 2,111
Valuation allowance	(2,111)

Net deferred tax asset	\$ --
	=====

NOTE 6 - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the accompanying financial statements, the Company incurred losses of \$6,211 since its inception and has not yet produced revenues from operations. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event that the Company cannot continue as a going concern. Management anticipates that it will be able to raise additional working capital through the issuance of stock and through additional loans from investors.

The ability of the Company to continue as a going concern is dependent upon the Company's ability to attain a satisfactory level of profitability and obtain suitable and adequate financing. There can be no assurance that management's plan will be successful.

NOTE 7 - SUBSEQUENT EVENTS

In accordance with SFAS 165 (ASC 855-10) the Company has analyzed its operations subsequent to March 31, 2010 and has determined that it does not have any material subsequent events to disclose in these financial statements.

INDEMNIFICATION OF DIRECTORS AND OFFICERS

Our sole officer and director is indemnified as provided by the Nevada Revised Statutes and our bylaws.

Under the NRS, director immunity from liability to a company or its shareholders for monetary liabilities applies automatically unless it is specifically limited by a company's articles of incorporation; that is not the case with our articles of incorporation. Excepted from that immunity are:

- (1) a willful failure to deal fairly with the company or its shareholders in connection with a matter in which the director has a material conflict of interest;
- (2) a violation of criminal law (unless the director had reasonable cause to believe that his or her conduct was lawful or no reasonable cause to believe that his or her conduct was unlawful);
- (3) a transaction from which the director derived an improper personal profit; and
- (4) willful misconduct.

Our bylaws provide that we will indemnify our directors and officers to the fullest extent not prohibited by Nevada law; provided, however, that we may modify the extent of such indemnification by individual contracts with our directors and officers; and, provided, further, that we shall not be required to indemnify any director or officer in connection with any proceeding (or part thereof) initiated by such person unless:

- (1) such indemnification is expressly required to be made by law;
- (2) the proceeding was authorized by our Board of Directors;
- (3) such indemnification is provided by us, in our sole discretion, pursuant to the powers vested us under Nevada law; or
- (4) such indemnification is required to be made pursuant to the bylaws.

Our bylaws provide that we will advance all expenses incurred to any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of the fact that he is or was our director or officer, or is or was serving at our request as a director or executive officer of another company, partnership, joint venture, trust or other enterprise, prior to the final disposition of the proceeding, promptly following request. This advance of expenses is to be made upon receipt of an undertaking by or on behalf of such person to repay said amounts should it be ultimately determined that the person was not entitled to be indemnified under our bylaws or otherwise.

Our bylaws also provide that no advance shall be made by us to any officer in any action, suit or proceeding, whether civil, criminal, administrative or investigative, if a determination is reasonably and promptly made: (a) by the board of directors by a majority vote of a quorum consisting of directors who were not parties to the proceeding; or (b) if such quorum is not obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, that the facts known to the decision-making party at the time such determination is made demonstrate clearly and convincingly that such person acted in bad faith or in a manner that such person did not believe to be in or not opposed to our best interests.

4. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to officers, directors, and controlling persons pursuant to the provisions above, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted our director, officer, or other controlling person in connection with the securities registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the final adjudication of such issue.

5. Each prospectus filed pursuant to Rule 424(b) as part of a Registration statement relating to an offering, other than registration statements relying on Rule 430(B) or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by referenced into the registration

statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the provisions above, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable.

In the event that a claim for indemnification against such liabilities, other than the payment by us of expenses incurred or paid by one of our directors, officers, or controlling persons in the successful defense of any action, suit or proceeding, is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification is against public policy as expressed in the Securities Act, and we will be governed by the final adjudication of such issue.

Section 4 - Notice of Meetings

A notice convening an annual or special meeting which specifies the place, day, and hour of the meeting, and the general nature of the business of the meeting, must be faxed, personally delivered or mailed postage prepaid to each shareholder of the Corporation entitled to vote at the meeting at the address of the shareholder as it appears on the stock transfer ledger of the Corporation, at least ten (10) days prior to the meeting. Accidental omission to give notice of a meeting to, or the non-receipt of notice of a meeting by, a shareholder will not invalidate the proceedings at that meeting.

Section 5 - Action Without a Meeting

Unless otherwise provided by law, any action required to be taken at a meeting of the shareholders, or any other action which may be taken at a meeting of the shareholders, may be taken without a meeting, without prior notice and without a vote if written consents are signed by shareholders representing a majority of the shares entitled to vote at such a meeting, except however, if a different proportion of voting power is required by law, the Articles of Incorporation or these Bylaws, than that proportion of written consents is required. Such written consents must be filed with the minutes of the proceedings of the shareholders of the Corporation.

Section 6 - Quorum

- a) No business, other than the election of the chairman or the adjournment of the meeting, will be transacted at an annual or special meeting unless a quorum of shareholders, entitled to attend and vote, is present at the commencement of the meeting, but the quorum need not be present throughout the meeting.
- b) Except as otherwise provided in these Bylaws, a quorum is two persons present and being, or representing by proxy, shareholders of the Corporation.
- c) If within half an hour from the time appointed for an annual or special meeting a quorum is not present, the meeting shall stand adjourned to a day, time and place as determined by the chairman of the meeting.

Subject to a special voting rights or restrictions attached to a class of shares, each shareholder shall be entitled to one vote for each share of stock in his or her own name on the books of the corporation, whether represented in person or by proxy.

Section 8 - Motions

No motion proposed at an annual or special meeting need be seconded.

Section 9 - Equality of Votes

In the case of an equality of votes, the chairman of the meeting at which the vote takes place is not entitled to have a casting vote in addition to the vote or votes to which he may be entitled as a shareholder or proxyholder.

Section 10 - Dispute as to Entitlement to Vote

In a dispute as to the admission or rejection of a vote at an annual or special meeting, the decision of the chairman made in good faith is conclusive.

Section 11 - Proxy

- a) Each shareholder entitled to vote at an annual or special meeting may do so either in person or by proxy. A form of proxy must be in writing under the hand of the appointor or of his or her attorney duly authorized in writing, or, if the appointor is a corporation, either under the seal of the corporation or under the hand of a duly authorized officer or attorney. A proxyholder need not be a shareholder of the Corporation.
- b) A form of proxy and the power of attorney or other authority, if any, under which it is signed or a facsimiled copy thereof must be deposited at the registered office of the Corporation or at such other place as is specified for that purpose in the notice convening the meeting. In addition to any

other method of depositing proxies provided for in these Bylaws, the Directors may from time to time by resolution make regulations relating to the depositing of proxies at a place or places and fixing the time or times for depositing the proxies not exceeding 48 hours (excluding Saturdays, Sundays and holidays) preceding the meeting or adjourned meeting specified in the notice calling a meeting of shareholders.

ARTICLE II: BOARD OF DIRECTORS

Section 1 - Number, Term, Election and Qualifications

- a) The first Board of Directors of the Corporation, and all subsequent Boards of the Corporation, shall consist of not less than one (1) and not more than nine (9) directors. The number of Directors may be fixed and changed from time to time by ordinary resolution of the shareholders of the Corporation.
- b) The first Board of Directors shall hold office until the first annual meeting of shareholders and until their successors have been duly elected and qualified or until there is a decrease in the number of directors. Thereinafter, Directors will be elected at the annual meeting of shareholders and shall hold office until the annual meeting of the shareholders next succeeding his or her election, or until his or her prior death, resignation or removal. Any Director may resign at any time upon written notice of such resignation to the Corporation.
- c) A casual vacancy occurring in the Board may be filled by the remaining Directors.
- d) Between successive annual meetings, the Directors have the power to appoint one or more additional Directors but not more than 1/2 of the number of Directors fixed at the last shareholder meeting at which Directors were elected. A Director so appointed holds office only until the next following annual meeting of the Corporation, but is eligible for election at that meeting. So long as he or she is an additional Director, the number of Directors will be increased accordingly.
- e) A Director is not required to hold a share in the capital of the Corporation as qualification for his or her office.

Section 2 - Duties, Powers and Remuneration

- a) The Board of Directors shall be responsible for the control and management of the business and affairs, property and interests of the Corporation, and may exercise all powers of the Corporation, except for those powers conferred upon or reserved for the shareholders or any other persons as required under Nevada state law, the Corporation's Articles of Incorporation or by these Bylaws.

Questions arising at a meeting must be decided by a majority of votes. In case of an equality of votes the chairman does not have a second or casting vote. Meetings of the Board held at regular intervals may be held at the place and time upon the notice (if any) as the Board may by resolution from time to time determine.
- c) A Director may participate in a meeting of the Board or of a committee of the Directors using conference telephones or other communications facilities by which all Directors participating in the meeting can hear each other and provided that all such Directors agree to such participation. A Director participating in a meeting in accordance with this Bylaw is deemed to be present at the meeting and to have so agreed. Such Director will be counted in the quorum and entitled to speak and vote at the meeting.
- d) A Director may, and the Secretary on request of a Director shall, call a meeting of the Board. Reasonable notice of the meeting specifying the place, day and hour of the meeting must be given by mail, postage prepaid, addressed to each of the Directors and alternate Directors at his or her address as it appears on the books of the Corporation or by leaving it at his or her usual business or residential address or by telephone, facsimile or other method of transmitting legibly recorded messages. It is not necessary to give notice of a meeting of Directors to a Director immediately following a shareholder meeting at which the Director has been elected, or is the meeting of Directors at which the Director is appointed.
- e) A Director of the Corporation may file with the Secretary a document executed by him waiving notice of a past, present or future meeting or meetings of the Directors being, or required to have been, sent to him and may at any time withdraw the waiver with respect to meetings held thereafter. After filing such waiver with respect to future meetings and until the waiver is withdrawn no notice of a meeting of Directors need be given to the Director. All meetings of the Directors so held will be deemed not to be improperly called or constituted by reason of notice not having been given to the Director.
- f) The quorum necessary for the transaction of the business of the Directors may be fixed by the Directors and if not so fixed is a majority of the Directors or, if the number of Directors is fixed at one, is one Director.
- g) The continuing Directors may act notwithstanding a vacancy in their body but, if and so long as their number is reduced below the number fixed pursuant to these Bylaws as the necessary quorum of Directors, the continuing Directors may act for the purpose of increasing the number of Directors to that number, or of summoning a shareholder meeting of the Corporation, but for no other purpose.

h) All acts done by a meeting of the Directors, a committee of Directors, or a person acting as a Director, will, notwithstanding that it be afterwards discovered that there was some defect in the qualification, election or appointment of the Directors, shareholders of the committee or person acting as a Director, or that any of them were disqualified, be as valid as if the person had been duly elected or appointed and was qualified to be a Director.

i) A resolution consented to in writing, whether by facsimile or other method of transmitting legibly recorded messages, by all of the Directors is as valid as if it had been passed at a meeting of the Directors duly called and held. A resolution may be in two or more counterparts which together are deemed to constitute one resolution in writing. A resolution must be filed with the minutes of the proceedings of the directors and is effective on the date stated on it or on the latest date stated on a counterpart.

j) All Directors of the Corporation shall have equal voting power.

Section 4 - Removal

One or more or all the Directors of the Corporation may be removed with or without cause at any time by a vote of two-thirds of the shareholders entitled to vote thereon, at a special meeting of the shareholders called for that purpose.

Section 5 - Committees

a) The Directors may from time to time by resolution designate from among its members one or more committees, and alternate members thereof, as they deem desirable, each consisting of one or more members, with such powers and authority (to the extent permitted by law and these Bylaws) as may be provided in such resolution. Unless the Articles of Incorporation or Bylaws state otherwise, the Board of Directors may appoint natural persons who are not Directors to serve on such committees authorized herein. Each such committee shall serve at the pleasure of the Board of Directors and unless otherwise stated by law, the Certificate of Incorporation of the Corporation or these Bylaws, shall be governed by the rules and regulations stated herein regarding the Board of Directors.

b) Each Committee shall keep regular minutes of its transactions, shall cause them to be recorded in the books kept for that purpose, and shall report them to the Board at such times as the Board may from time to time require. The Board has the power at any time to revoke or override the authority given to or acts done by any Committee.

ARTICLE III: OFFICERS

Section 1 - Number, Qualification, Election and Term of Office

a) The Corporation's officers shall have such titles and duties as shall be stated in these Bylaws or in a resolution of the Board of Directors which is not inconsistent with these Bylaws. The officers of the Corporation shall consist of a president, secretary, treasurer, and also may have one or more vice presidents, assistant secretaries and assistant treasurers and

such other officers as the Board of Directors may from time to time deem advisable. Any officer may hold two or more offices in the Corporation, and may or may not also act as a Director.

b) The officers of the Corporation shall be elected by the Board of Directors at the regular annual meeting of the Board following the annual meeting of shareholders.

c) Each officer shall hold office until the annual meeting of the Board of Directors next succeeding his or her election, and until his or her successor shall have been duly elected and qualified, subject to earlier termination by his or her death, resignation or removal.

Section 2 - Resignation

Any officer may resign at any time by giving written notice of such resignation to the Corporation.

Section 3 - Removal

Any officer appointed by the Board of Directors may be removed by a majority vote of the Board, either with or without cause, and a successor appointed by the Board at any time, and any officer or assistant officer, if appointed by another officer, may likewise be removed by such officer.

Section 4 - Remuneration

The remuneration of the Officers of the Corporation may from time to time be determined by the Directors or, if the Directors decide, by the shareholders.

Section 5 - Conflict of Interest

Each officer of the Corporation who holds another office or possesses property whereby, whether directly or indirectly, duties or interests might be created in conflict with his or her duties or interests as an officer of the Corporation shall, in writing, disclose to the President the fact and the nature, character and extent of the conflict.

ARTICLE V: SHARES OF STOCK

Section 1 - Certificate of Stock

a) The shares of the Corporation shall be represented by certificates or shall be uncertificated shares.

b) Certificated shares of the Corporation shall be signed, either manually or by facsimile, by officers or agents designated by the Corporation for such purposes, and shall certify the number of shares owned by the shareholder in the Corporation. Whenever any certificate is countersigned or otherwise authenticated by a transfer agent or transfer clerk, and by a registrar, then a facsimile of the signatures of the officers or agents, the transfer agent or transfer clerk or the registrar of the Corporation may be printed or lithographed upon the certificate in lieu of the actual signatures. If the Corporation uses facsimile signatures of its officers and agents on its

stock certificates, it cannot act as registrar of its own stock, but its transfer agent and registrar may be identical if the institution acting in those dual capacities countersigns or otherwise authenticates any stock certificates in both capacities. If any officer who has signed or whose facsimile signature has been placed upon such certificate, shall have ceased to be such officer before such certificate is issued, it may be issued by the Corporation with the same effect as if he were such officer at the date of its issue.

c) If the Corporation issued uncertificated shares as provided for in these Bylaws, within a reasonable time after the issuance or transfer of such uncertificated shares, and at least annually thereafter, the Corporation shall send the shareholder a written statement certifying the number of shares owned by such shareholder in the Corporation.

d) Except as otherwise provided by law, the rights and obligations of the holders of uncertificated shares and the rights and obligations of the holders of certificates representing shares of the same class and series shall be identical.

e) If a share certificate:

(i) is worn out or defaced, the Directors shall, upon production to them of the certificate and upon such other terms, if any, as they may think fit, order the certificate to be cancelled and issue a new certificate;

(ii) is lost, stolen or destroyed, then upon proof being given to the satisfaction of the Directors and upon and indemnity, if any being given, as the Directors think adequate, the Directors shall issue a new certificate; or

(iii) represents more than one share and the registered owner surrenders it to the Corporation with a written request that the Corporation issue in his or her name two or more certificates, each representing a specified number of shares and in the aggregate representing the same number of shares as the certificate so surrendered, the Corporation shall cancel the certificate so surrendered and issue new certificates in accordance with such request.

Section 2 - Transfers of Shares

a) Transfers or registration of transfers of shares of the Corporation shall be made on the stock transfer books of the Corporation by the registered holder thereof, or by his or her attorney duly authorized by a written power of attorney; and in the case of shares represented by certificates, only after the surrender to the Corporation of the certificates representing such shares with such shares properly endorsed, with such evidence of the authenticity of such endorsement, transfer, authorization and other matters as the Corporation may reasonably require, and the payment of all stock transfer taxes due thereon.

b) The Corporation shall be entitled to treat the holder of record of any share or shares as the absolute owner thereof for all purposes and, accordingly, shall not be bound to recognize any legal, equitable or other claim to, or interest in, such share or shares on the part of any other

person, whether or not it shall have express or other notice thereof, except as otherwise expressly provided by law.

Section 3 - Record Date

a) The Directors may fix in advance a date, which must not be more than 60 days permitted by the preceding the date of a meeting of shareholders or a class of shareholders, or of the payment of a dividend or of the proposed taking of any other proper action requiring the determination of shareholders as the record date for the determination of the shareholders entitled to notice of, or to attend and vote at, a meeting and an adjournment of the meeting, or entitled to receive payment of a dividend or for any other proper purpose and, in such case, notwithstanding anything in these Bylaws, only shareholders of records on the date so fixed will be deemed to be the shareholders for the purposes of this Bylaw.

b) Where no record date is so fixed for the determination of shareholders as provided in the preceding Bylaw, the date on which the notice is mailed or on which the resolution declaring the dividend is adopted, as the case may be, is the record date for such determination.

Section 4 - Fractional Shares

Notwithstanding anything else in these Bylaws, the Corporation, if the Directors so resolve, will not be required to issue fractional shares in connection with an amalgamation, consolidation, exchange or conversion. At the discretion of the Directors, fractional interests in shares may be rounded to the nearest whole number, with fractions of 1/2 being rounded to the next highest whole number, or may be purchased for cancellation by the Corporation for such consideration as the Directors determine. The Directors may determine the manner in which fractional interests in shares are to be transferred and delivered to the Corporation in exchange for consideration and a determination so made is binding upon all shareholders of the Corporation. In case shareholders having fractional interests in shares fail to deliver them to the Corporation in accordance with a determination made by the Directors, the Corporation may deposit with the Corporation's Registrar and Transfer Agent a sum sufficient to pay the consideration payable by the Corporation for the fractional interests in shares, such deposit to be set aside in trust for such shareholders. Such setting aside is deemed to be payment to such shareholders for the fractional interests in shares not so delivered which will thereupon not be considered as outstanding and such shareholders will not be considered to be shareholders of the Corporation with respect thereto and will have no right except to receive payment of the money so set aside and deposited upon delivery of the certificates for the shares held prior to the amalgamation, consolidation, exchange or conversion which result in fractional interests in shares.

ARTICLE VI: DIVIDENDS

a) Dividends may be declared and paid out of any funds available therefor, as often, in such amounts, and at such time or times as the Board of Directors may determine and shares may be issued pro rata and without consideration to the Corporation's shareholders or to the shareholders of one or more classes or series.

b) Shares of one class or series may not be issued as a share dividend to shareholders of another class or series unless such issuance is in accordance with the Articles of Incorporation and:

(i) a majority of the current shareholders of the class or series to be issued approve the issue; or

(ii) there are no outstanding shares of the class or series of shares that are authorized to be issued as a dividend.

ARTICLE VII: BORROWING POWERS

a) The Directors may from time to time on behalf of the Corporation:

(i) borrow money in such manner and amount, on such security, from such sources and upon such terms and conditions as they think fit,

(ii) issue bonds, debentures and other debt obligations either outright or as security for liability or obligation of the Corporation or another person, and

(iii) mortgage, charge, whether by way of specific or floating charge, and give other security on the undertaking, or on the whole or a part of the property and assets of the Corporation (both present and future).

b) A bond, debenture or other debt obligation of the Corporation may be issued at a discount, premium or otherwise, and with a special privilege as to redemption, surrender, drawing, allotment of or conversion into or exchange for shares or other securities, attending and voting at shareholder meetings of the Corporation, appointment of Directors or otherwise, and may by its terms be assignable free from equities between the Corporation and the person to whom it was issued or a subsequent holder thereof, all as the Directors may determine.

ARTICLE VIII: FISCAL YEAR

The fiscal year end of the Corporation shall be fixed, and shall be subject to change, by the Board of Directors from time to time, subject to applicable law.

ARTICLE IX: CORPORATE SEAL

The corporate seal, if any, shall be in such form as shall be prescribed and altered, from time to time, by the Board of Directors. The use of a seal or stamp by the Corporation on corporate documents is not necessary and the lack thereof shall not in any way affect the legality of a corporate document.

ARTICLE X: AMENDMENTS

Section 1 - By Shareholders

All Bylaws of the Corporation shall be subject to alteration or repeal, and new Bylaws may be made by a majority vote of the shareholders at any annual meeting or special meeting called for that purpose.

Section 2 - By Directors

The Board of Directors shall have the power to make, adopt, alter, amend and repeal, from time to time, Bylaws of the Corporation.

ARTICLE XI: DISCLOSURE OF INTEREST OF DIRECTORS

a) A Director who is, in any way, directly or indirectly interested in an existing or proposed contract or transaction with the Corporation or who holds an office or possesses property whereby, directly or indirectly, a duty or interest might be created to conflict with his or her duty or interest as a Director, shall declare the nature and extent of his or her interest in such contract or transaction or of the conflict with his or her duty and interest as a Director, as the case may be.

b) A Director shall not vote in respect of a contract or transaction with the Corporation in which he is interested and if he does so his or her vote will not be counted, but he will be counted in the quorum present at the meeting at which the vote is taken. The foregoing prohibitions do not apply to:

(i) a contract or transaction relating to a loan to the Corporation, which a Director or a specified corporation or a specified firm in which he has an interest has guaranteed or joined in guaranteeing the repayment of the loan or part of the loan;

(ii) a contract or transaction made or to be made with or for the benefit of a holding corporation or a subsidiary corporation of which a Director is a director or officer;

(iii) a contract by a Director to subscribe for or underwrite shares or debentures to be issued by the Corporation or a subsidiary of the Corporation, or a contract, arrangement or transaction in which a Director is directly or indirectly interested if all the other Directors are also directly or indirectly interested in the contract, arrangement or transaction;

(iv) determining the remuneration of the Directors;

(v) purchasing and maintaining insurance to cover Directors against liability incurred by them as Directors; or

(vi) the indemnification of a Director by the Corporation.

c) A Director may hold an office or place of profit with the Corporation (other than the office of Auditor of the Corporation) in conjunction with his or her office of Director for the period and on the terms (as to remuneration or otherwise) as the Directors may determine. No Director or intended Director will be disqualified by his or her office from contracting with the Corporation either with regard to the tenure of any such other office or place of profit, or as vendor, purchaser or otherwise, and, no contract or transaction entered into by or on behalf of the Corporation in which a Director is interested is liable to be voided by reason thereof.

d) A Director or his or her firm may act in a professional capacity for the Corporation (except as Auditor of the Corporation), and he or his or her firm is entitled to remuneration for professional services as if he were not a Director.

e) A Director may be or become a director or other officer or employee of, or otherwise interested in, a corporation or firm in which the Corporation may be interested as a shareholder or otherwise, and the Director is not accountable to the Corporation for remuneration or other benefits received by him as director, officer or employee of, or from his or her interest in, the other corporation or firm, unless the shareholders otherwise direct.

ARTICLE XII: ANNUAL LIST OF OFFICERS, DIRECTORS AND REGISTERED AGENT

The Corporation shall, within sixty days after the filing of its Articles of Incorporation with the Secretary of State, and annually thereafter on or before the last day of the month in which the anniversary date of incorporation occurs each year, file with the Secretary of State a list of its president, secretary and treasurer and all of its Directors, along with the post office box or street address, either residence or business, and a designation of its resident agent in the state of Nevada. Such list shall be certified by an officer of the Corporation.

ARTICLE XIII: INDEMNITY OF DIRECTORS, OFFICERS, EMPLOYEES AND AGENTS

a) The Directors shall cause the Corporation to indemnify a Director or former Director of the Corporation and the Directors may cause the Corporation to indemnify a director or former director of a corporation of which the Corporation is or was a shareholder and the heirs and personal representatives of any such person against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, actually and reasonably incurred by him or them including an amount paid to settle an action or satisfy a judgment in a criminal or administrative action or proceeding to which he is or they are made a party by reason of his or her being or having been a Director of the Corporation or a director of such corporation, including an action brought by the Corporation or corporation. Each Director of the Corporation on being elected or appointed is deemed to have contracted with the Corporation on the terms of the foregoing indemnity.

b) The Directors may cause the Corporation to indemnify an officer, employee or agent of the Corporation or of a corporation of which the Corporation is or was a shareholder (notwithstanding that he is also a Director), and his or her heirs and personal representatives against all costs, charges and

expenses incurred by him or them and resulting from his or her acting as an officer, employee or agent of the Corporation or corporation. In addition the Corporation shall indemnify the Secretary or an Assistance Secretary of the Corporation (if he is not a full time employee of the Corporation and notwithstanding that he is also a Director), and his or her respective heirs and legal representatives against all costs, charges and expenses incurred by him or them and arising out of the functions assigned to the Secretary by the Corporation Act or these Articles and each such Secretary and Assistant Secretary, on being appointed is deemed to have contracted with the Corporation on the terms of the foregoing indemnity.

c) The Directors may cause the Corporation to purchase and maintain insurance for the benefit of a person who is or was serving as a Director, officer, employee or agent of the Corporation or as a director, officer, employee or agent of a corporation of which the Corporation is or was a shareholder and his or her heirs or personal representatives against a liability incurred by him as a Director, officer, employee or agent.
